

Welcome!

Glad to have you here! You're in the right place if you want to learn jazz guitar. The aim of this course is to teach you how to get started with jazz using my structured 'triangle' method. The majority of almost all musical practise is found in one of three categories shown on the next page. You will learn about each of these elements separately and later you will combine them together in a full performance piece. So, by studying each module, you will have the blueprint required to learn and teach yourself jazz guitar!

“Jazz washes away the dust of everyday life” – Art Blakey
